### Product Summary

Dienes's unique triple cylinder pneumatic crush/score cut holder for heavy duty, narrow-width (.79") applications. This narrow width slitter develops nearly triple the cutting force of single cylinder holders. This design employs the same mounting dimensions as all the Dienes PQDS style holders and can be interchanged on the same dovetail bars. These holders come standard with the same pneumatic connections Dienes offers on all PQDS style holders. This model is unique in the pneumatic cylinders are stacked in tandem to deliver high cutting forces. The

PQD-MC-3 holders are able to produce 360 pounds force when 90 PSI is applied to the holder. These holders are rated to run web speeds of 1250 feet per minute. This high force knife holder is capable of slitting high strength materials including sand paper, fiberglass, leather, flooring, tough nonwoven materials, and even roofing shingles.
